Safety Orientation Completion

If your attendance status remains listed as In Progress after attempting to complete the new Safety Orientation course, you can try the following steps to update your attendance. The most common cause of this issue is when a learner selects the Finish Evaluation button on the last slide but does not return to the course and select the Exit button. While valuable, the evaluation will not impact attendance status. To complete the course, learners should:

1. Launch the course and resume where they left off
2. If needed, advance to the last slide
3. Select the large red button labeled Exit

A quick video demonstration of the process is available on the UC Learning Center webpage: Safety Orientation Exit Demo.

Moving Beyond Bias Series for Admissions Officers & Readers

Moving Beyond Bias for Admissions Officers & Readers is a 5-module online series on implicit bias designed specifically for California State University and University of California employees. This is a customized version of Moving Beyond Bias designed for the UC Admissions Officers and Readers only. Currently in a pilot phase, a general series for all staff will be available soon.
